## AUTOCOMPLEX 2007 –

### Clear sign of sustained economic growth on the Russian filling station market

### Exhibitors tell of numerous contracts concluded and praise the high quality of trade visitors

The lasting economic strength of Russia, which has also put the filling station market into an optimistic mood, could be clearly felt at the industry's most important trade fair in Eastern Europe, putting the 160 exhibitors of AUTOCOMPLEX 2007 into excellent spirits. Companies presented the entire range of new technologies and services for the industry on 4,000 square metres.

The exhibitors were thrilled with the generally high and qualified demand and with the unexpectedly large number of new customer contacts. The increased willingness to invest led to concrete negotiations and even the conclusion of contracts in many cases during the 3 days of the fair.

More than 8,500 trade visitors made their way to the 14<sup>th</sup> International Trade Fair AUTOCOMPLEX 2007 in Moscow. They came from 13 countries to visit the AUTOCOMPLEX and awarded top marks for the wealth of new technological developments presented by the exhibiting companies.

The next AUTOCOMPLEX will be held in Moscow from 28 – 30 October 2008.
